## Alouette River Foodshed Cumulative Effects Study

# COMMUNITY DINNER

May 30, 2024

5:00 PM - 8:00PM

KATZIE HEALTH

CENTRE GYM

With the support of Katzie community members and families, we have completed our study looking at impacts to the Alouette, from pre-contact to present day, and have identified actions that BC Hydro and others can take to restore the holistic wellbeing of the Alouette. We would like to share the findings and recommendations and seek continued guidance in our work to rewater and restore the Alouette!

If you have any questions or concerns on activities within Katzie's Traditional Territory, please contact our Territorial Guardianship & Referrals Department at [Landopsreferrals@katzie.ca](mailto:Landopsreferrals@katzie.ca) or call (604)-849-0676

## Turf Farm Proposal – 208<sup>th</sup> and Allard Crescent

### Background

Katzie received a request to consult on a proposed turf farm at 20598 Allard Crescent, directly beside Katzie 2, as shown in the map below. We completed an initial review of the proposal, and have requested more information from the Proponent. We will host a knowledge sharing event with community when we learn more about the proposal and want to also share what we know now.

### The Proposal

The proposal is to remove up to 2 m of peat bog from the site, and replace this with structural sand fill to support a turf farm (aqua blue-green area of map), build agricultural buildings (green area of map), have 15m stream setback (red cross hatch lines on map) from Yorkson creek to the west, and a tributary to Yorkson Creek to the south. The land is to be graded to drain to the north east corner at 208<sup>th</sup> and Allard Crescent, where a stormwater pond will be built on the property. This pond will connect to the drainage ditch along 208<sup>th</sup>, which flows into Yorkson creek.

If you have any questions or concerns on activities within Katzie's Traditional Territory, please contact our Territorial Guardianship & Referrals Department at [Landopsreferrals@katzie.ca](mailto:Landopsreferrals@katzie.ca) or call (604)-849-0676

## Turf Farm Proposal – 208<sup>th</sup> and Allard Crescent

### Request for Information

Katzie has requested additional information, to better understand if or how works could impact Katzie 2 or Yorkson Creek, and how the Proponent proposes to avoid these impacts if present, including:

- How will the removal of trees, shrubs, and peat soil in the turf farm area, that is to be replaced with sand-structural fill, impact site drainage, and runoff?
- How high will the land be built up to support turf farm operations, and how will this impact site drainage and runoff?
- How will this change flood risks to Katzie 2, and assurance that this is adequately assessed.

całcəłəm (Mouth of Yorkson Creek) is a place of great significance and is part of Katzie's eco-cultural landscape. We will need to consider as part of our review the environmental and cultural heritage risks associated with this work and if or how this can be addressed. We hope to learn more about this from community in our upcoming knowledge sharing event.

### Next Steps

When hear back about the site drainage and flood risk information we have requested, we will host an knowledge sharing event, to learn from community concerns, questions, and input to bring forward in this process.

The property is being routinely cleared of garbage that gets dumped there, but no development work for the turf farm is permitted to proceed. The Township of Langley requires a letter of support from Katzie before they will issue a soil fill permit, and we have notified them that our review is ongoing.

We welcome any questions, comments or concerns, reach out anytime by email:
