Preventative Measures

Air Conditioners

- ⇒ Before installing your AC unit remove the filter and clean it with a vacuum or warm soapy water. Allow to dry before replacing into your unit. Dirty filters can impact your air conditioner performance and air quality of your home.
- ⇒ While installing, ensure the A/C is draining properly, dripping away from the machine.
- ⇒ Block the sun by closing blinds and curtains during the hottest parts of the day.
- ⇒ Prior to use after storage, you should inspect the seals around the unit to ensure that there are no gaps that can allow cool air to leak out and or insects from outside to enter your home.

Summer Tips

- ⇒ Spruce up your front door. Pressure wash the walkway, sweep any debris
- ⇒ Tidy up your flower beds. Remove twigs and leaves, rake up the dead grass
- ⇒ Clear out your gutters and check for damaged siding
- ⇒ Clean up your deck using a brush or power washer.
- ⇒ Scrub your BBQ. Heat the grill for 10 minutes so its easier to scrape off gunk. Disconnect the gas line and let the grill cool before removing and washing the grates, burners, and drip tray in warm, soapy water. Wipe down the grill exterior before putting everything back together.
