EMPOWERING OUR COMMUNITY, ONE PADDLE AT A TIME.

WELCOME TO OUR

Wellness Newsletter

Stay Safe, Keep Our Community Safe!

If you're feeling unwell, please refrain from entering our Health and Community Centre unless you have an appointment with our Nurse or Doctor.

To protect our vulnerable members, staff, and outside community guests, including nurses, clinicians, and facilitators, we kindly ask that you wear a mask if you are experiencing cold, flu, or any other illness symptoms. Thank you for your cooperation and understanding!

In this newsletter you will find:

Latest health information, educational health workshops, clinics, health programming and more. Keep Reading!

Reclaiming Connections

A 10-week trauma-informed, strength-based, culturally infused and relationally focused program shaped by Indigenous communities to collaboratively support parents and other carers of youth aged 8-18 years.

Caregivers come together in groups of 8-12 with two facilitators for 1.5 hours each week. We are inclusive of all caregivers. Knowledge keepers and Elders are welcome at each gathering for the opening and closing with traditional ceremonies.

Date: Thursdays, 6:30 - 8:00 PM starting **January 29th**

Location: online via Teams

We are able to provide a small support for food (\$20) and childcare (\$30) to caregivers attending the group

For more information on joining the group, contact:
Teresa Daly <Teresa.Daly@gov.bc.ca>

Cold and Flu Season Reminder:

COVID-19 Guidelines

As we move through cold and flu season, COVID-19 is still present in our communities. Here are some important reminders based on current BCCDC and PHO guidelines:

Isolation is no longer legally required in BC, but if you test positive or have symptoms, it's strongly recommended you stay home until you feel well and your fever is gone without medication.

No need to re-test before returning to activities—tests can remain positive for weeks even after you're no longer infectious.

For most people, you're considered unlikely to be contagious once symptoms have improved and you've been fever-free for **24 hours**.

Immunocompromised or severe cases may remain infectious longer (up to 20 days), so extra caution is advised.

If you must be around others before fully recovering, **wear a mask and practice good hand hygiene**.

Vaccination and boosters are strongly recommended for those over 65 or immunocompromised, as protection decreases over time.

Quick Tips

- **Mild cases** are usually not contagious after about 10 days from symptom onset
- **Severe or immunocompromised cases** may be contagious for up to 3 weeks.

Please stay home if you're unwell and help reduce the spread of all illnesses this season

While the risk of severe illness has decreased thanks to community immunity, **significant risk remains for immunocompromised individuals**. Let's all do our part to protect those who need it most.

If you have questions about your symptoms, contact your healthcare provider.

The importance of making your appointments and keeping them

The relationship between you and your Health Care professional is crucial for the success of your treatment and overall wellness. Making and Keeping appointments reflects your respect for others and shows that you value their time. Consistently attending scheduled sessions lay the groundwork for the essential, and sometimes challenging, work involved in your treatment.

If you need to cancel an appointment, please inform us as soon as possible by calling 604-465-8921. This allows us to offer your time slot to another person in need.

We must be considerate of our practitioners' schedules and their time in the community. If missed appointments become a regular issue, we will need to discuss the situation further, as we incur costs for the service even if you do not attend.
