Protect Yourself & Your Community: Catch Up on Measles Vaccines

From Dr. Celeste Loewe, FNHA Medical Officer & Brittany Deeter, RN, FNHA Director of Communicable Disease.

Many people missed routine vaccinations during the COVID-19 pandemic. As a result, measles is making a comeback in BC—a disease once eliminated in Canada.

Why Measles Matters

Measles is highly contagious and can cause serious complications like:

- Pneumonia
- Brain inflammation
- Hearing loss
- Even death

Who's Most at Risk?

- Unvaccinated individuals
- Babies under 12 months
- People with weakened immune systems
- Pregnant individuals

What You Can Do

- ✓ Get vaccinated – it's free and safe.
- ✓ Check your immunization status – especially if you were born after 1970. Two doses are needed.
- ✓ Contact your community health nurse, public health unit, or local pharmacy.

Know the Symptoms

Fever, cough, runny nose, red eyes, then a rash starting on the face and spreading. If you think you have measles, call ahead before visiting a clinic—it spreads easily through the air.

Let's work together to keep our communities safe. Visit [FNHA.ca](https://fnha.ca), [HealthLink BC](https://healthlinkbc.ca), or the [BCCDC](https://bccdc.ca) website for more info.

MEASLES

What you need to know

Measles is a highly contagious virus that can be very serious.
Vaccination is the most effective way to prevent transmission and illness.

Symptoms

Rash

Cough

Red,
watery eyes

Runny nose

High fever

Other symptoms may include ear infections, lung infections or diarrhea

In severe cases, measles can be fatal

- Measles spreads when someone who has measles coughs or sneezes.
- It can also stay in the air and on things like tables or toys for a long time. 90 percent of people who haven't been vaccinated or haven't had measles before will be infected if they are around someone who is sick with measles.

Prevention

- Talk to your Community Health Nurse about protection against measles.
- You can also check your medical records to see if you or your child is vaccinated against measles through the BC Health Gateway online: healthgateway.gov.bc.ca

What else can you do?

- ✓ Stay home if you are sick.
- ✓ Wash your hands to protect others.
- ✓ If you have symptoms and need to be assessed, call ahead so the clinic can protect others.
- ✓ Stay up-to-date on your Measles vaccine.

THINK MEASLES

First Nations Health Authority
Health through wellness

Consider measles in any client presenting with a febrile rash illness, especially if unvaccinated for measles or traveled where measles is known to be circulating in the last 21 days.

MEASLES SYMPTOMS

- High Fever
- Cough
- Coryza (runny nose)
- Conjunctivities (red, watery eyes)
- Koplik spots (tiny white spots inside mouth)
- Maculopapular Rash
 - Typically appears 2-4 days after symptoms begin
 - Begins at hairline, spreads downward, to face, neck and trunk
 - Rash appears red on light complexions, but may be harder to see or appear as purple or darker than surrounding skin on dark complexions

PRE-VISIT TELEPHONE TRIAGE

- For those reporting measles symptoms, assess the risk of exposure:
 - Has there been contact with a known measles case?
 - Are measles cases present in your community?
 - Did the client spend time out of the community and/or country or in an area where measles is circulating in the 21 days before symptom onset?
- Is the client protected from measles by vaccination or disease?
- In order to protect others in the clinic, client and companion will be asked to wear a medical mask and, if possible, will be placed in a private room. If available have client enter through a side or back entrance to reduce exposure to others.

PATIENTS PRESENTING WITH SUSPECTED MEASLES

- Provide a medical mask to clients (2 years of age and older) and anyone accompanying them before they enter the clinic.
- Immediately move client and companion to a physically separate location, ideally a negative pressure room (AIIR) if available. If unavailable, use a private room with the door closed.

INFECTION PREVENTION PRECAUTIONS

NOTE: Only healthcare providers/staff known to be immune to measles should be in contact with the client.

- Carry out a Point of Care Risk Assessment (PCRA) to select appropriate PPE & additional infection prevention precaution measures.
- Implement Airborne Precautions and place in a private room (ideally negative pressure) with minimal supplies/equipment.
- Use a fit tested N95 respirator.
- Use a gown/gloves eye protection as per the PCRA.
- Carry out Routine Practices (5-moments of hand hygiene etc.).
- Provide client and others who may be exposed with a medical mask for use in the clinic and during transportation.
- Maintain airborne precautions until at least 4 days after rash onset for immunocompetent clients and until symptom resolution for immunocompromised clients.
- If a negative pressure room is unavailable, the room the client was in should remain vacant for at least 2 hours after the client leaves. If a staff member must enter the room within 2 hours, a fit tested N95 respirator should be worn.
- After the 2 hour air clearance time is complete, a terminal clean with Health Canada approved healthcare grade products should be carried out.

PUBLIC HEALTH NOTIFICATION

- Measles is a reportable disease in BC.
- Refer to the [BCCDC Manual: Measles Interim Guidelines](#) for guidance on case definition, testing and case and contact management.
- Immediately report all confirmed, probable and suspect cases of measles as per BCCDC Case Definition to the [RHA CD Unit](#) and initiate control measures.

Please contact ipc@fnha.ca, cdmgmt@fnha.ca or immunize@fnha.ca for any questions or guidance

Q & A

QUESTION

What can I do if I'm struggling with feelings of shame or guilt about my LGBTQ+ identity?

ANSWER

Shame and guilt can be such heavy emotions, especially when they're tied to something as personal as your identity. I want to remind you that these feelings are not your truth—they're often the result of societal judgment or past experiences that no longer serve you.

Together, we can work through these emotions and begin to replace them with self-compassion and self-acceptance. You deserve to feel good about who you are, and healing from shame takes time, but every step toward healing is a step in the right direction. Please be patient with yourself.

THE CLINIC UPDATE

CHANGES AT THE CLINIC: WHAT YOU NEED TO KNOW

Good day to all you Lovely people

Unfortunately June 11th was Jayme Burgoyne N.P.'s last day with us. She is on Maternity leave and will be back on July 13th of 2026. Fraser Health is trying their best to hire another N.P. to cover while Jayme is gone. We will update the minute we hear anything.

In the meantime, please call Jenn to book in with Cherysh or the Frafca Clinic in Surrey regarding any health matters that concern you. NO appointments will be booked via email. Cherysh R.N. can see patients in the clinic, however she can not write prescriptions.

Mandy will be here for footcare starting June 18th and every other Wednesday going forward. Please call Jenn to book an appointment.

Thank you for your time
Cherysh R.N. and Jennifer M.O.A.

NEED A NURSE?

Our Fraser Health Nurses are ready to help!

Reach out to MOA Jenn at 604-465-8921 ext 422 to book an appointment with one of our dedicated nurses:

The importance of making your appointments and keeping them

The relationship between you and your Health Care professional is crucial for the success of your treatment and overall wellness. Making and Keeping appointments reflects your respect for others and shows that you value their time. Consistently attending scheduled sessions lay the groundwork for the essential, and sometimes challenging, work involved in your treatment.

If you need to cancel an appointment, please inform us as soon as possible by calling 604-465-8921. This allows us to offer your time slot to another person in need.

We must be considerate of our practitioners' schedules and their time in the community. If missed appointments become a regular issue, we will need to discuss the situation further, as we incur costs for the service even if you do not attend.

About the Trainer: Tammy Ellison

With over 20 years of experience in fitness, my journey began as a teen playing rugby and soccer, which sparked my interest in strength and conditioning coaching. As a mom of teenagers who play lacrosse, I've brought this passion into my everyday life, even volunteering as a coach for the Ridge Meadows Minor Lacrosse Association.

As a Personal Trainer, my mission goes beyond helping people lose weight or gain muscle; I am dedicated to helping others love the skin they're in and build confidence—both inside and out. I focus on empowering my clients to overcome obstacles and injuries, while fostering a healthy mind and body. Watching my clients reach their full potential is what drives me, and it motivates me to continue inspiring others to live their best life.

I specialize in:

- Strength + Conditioning
- Weight Loss
- Weight Training
- Functional Training
- Injury Prevention
- Postural Assessment
- Pre-Post Natal
- Nutritional Wellness
- Older Adult Wellness
- Sports Specific Training
- TRX
- Kettlebell
