The importance of making your appointments and keeping them

The relationship between you and your Health Care professional is crucial for the success of your treatment and overall wellness. Making and Keeping appointments reflects your respect for others and shows that you value their time. Consistently attending scheduled sessions lay the groundwork for the essential, and sometimes challenging, work involved in your treatment.

If you need to cancel an appointment, please inform us as soon as possible by calling 604-465-8921. This allows us to offer your time slot to another person in need.

We must be considerate of our practitioners' schedules and their time in the community. If missed appointments become a regular issue, we will need to discuss the situation further, as we incur costs for the service even if you do not attend.
