HSP Renovations

The Housing Department continues to move forward with the Housing Support Program (HSP) renovations.

Inspections, energy efficiency audits, contractor walkthroughs, and bid reviews have all been completed for approved homes!

The goal of this work is to improve the safety, functionality, and energy efficiency of homes while ensuring repairs are completed in a fair and organized process. Due to staffing capacity and the amount of work involved in each home, timelines can sometimes move slower than anticipated, but progress is continuing behind the scenes.

The Housing Department appreciates the patience and cooperation of members throughout this process and remains committed to improving housing conditions for our community.

Looking Ahead...

The Housing Department continues working on several long-term projects and initiatives aimed at strengthening housing services, improving communication, and supporting the future needs of the community:

- Reviewing and updating Tenant Agreements to better reflect current housing needs and expectations. (*Inspections to take place end of June*)
- Development of updated Housing Policies and long-term housing strategies.
- Continued collaboration with consultants, inspectors, and partner organizations to improve internal processes and housing supports.
- Planning additional community engagement opportunities and information sessions so members can provide feedback and stay informed on housing-related initiatives
